

August 24, 2020

As of yesterday's report, Greenwood County had 0 additional confirmed cases in the county for a total of 1,634 cases confirmed since 21 March. *Remember this is only those which have been confirmed and is for those who were tested a minimum of two days ago. This means there are others who have been tested and are in quarantine awaiting results. Additionally, an individual can be asymptomatic, (contagious but shows no symptoms), and may choose not to be tested.*

The first 1,384 cases in Greenwood County were reported over 15 days ago, so there are 1,384 individuals who should have recovered from the virus. Additionally, Greenwood County has had **25** confirmed deaths due to the virus. **(1 new confirmed death of an elderly individual)**. This brings Greenwood County's remaining estimated total of active confirmed cases to 225. *DHEC does not track recovered individuals by county, so this number is an estimate based on the following: Most individuals recover from the virus within this time frame.*

From 10 August until 23 August (2 weeks), Greenwood has had 232 confirmed cases out of a population of 70,811. This equates to an incident rate of 327.6 per 100,000 individuals which is rated as **high** by SCDHEC. (Low = 50 or less; Medium = 51 - 200; High = 201 or more)

SCDHEC reported an additional 663 new confirmed cases in the state for a total of 110,658. Also, they reported 8 new confirmed deaths in the state for a total of 2,380. Please click this [link](#) to see the deaths by county. For additional information on underlying conditions or other information in this section, please call DHEC at 1-855- 472- 3432. *SCDHEC has begun providing a number of probable cases and deaths. I will only be providing the confirmed numbers. Once a probable case or death is confirmed, they will add it to their confirmed total and I will report it.*

SCDHEC reported 7,909 of 10,120 inpatient beds are in use for a 78.2% usage rate statewide. Of the 7,909 beds in use, 1,026 are occupied by patients who either have tested positive or are under investigation for COVID-19. This is 13.0% of the beds in use.

As of 22 August, Greenwood County has 170 of 200 hospital beds in use which is 85.0% utilization rate. As of 20 August, Self Regional reported 48 COVID-19 patients with 17 in ICU. Of these, 12 patients are on ventilation.

SCDHEC is finding an increased rate of individuals who do not have symptoms and don't know they are infectious as they have expanded testing. This increases the risk of spreading the virus. Over the past couple of weeks, Greenwood County has seen the number of cases of COVID-19 increase. In some cases, this was the result of individuals not social distancing or wearing masks. It is important we slow the spread of the virus by keeping 6 feet apart, washing our hands, avoiding large gatherings, remaining home when sick and **wearing face coverings** when in public facilities which do not allow for social distancing.
